

## SLS CREATES ACHIEVEMENT...

### DEILAB LEGO® Engineering

DEILAB (pronounced day-lab) provides a program that will allow students to explore form, function and scale through hands-on project based learning and testing with LEGO®. Curriculum is based on mechanical, artistic, architectural design and engineering projects. Students will stimulate and develop their imagination, critical thinking and creative skills while building self-confidence.

### The College Tour

Student's visit and experience life at prominent Colleges & Universities. The College Tour transforms the student process of determining which school best suits their need for an enriching college experience. Students take campus tours, meet admissions representatives and learn about programs and fields of study offered at each institution. During The College Tour orientation, the students are educated on how to get the most out of the college visits. They receive materials to guide them in evaluating each school. The students also learn how to compare institutions and are provided with guidance to help them understand what factors are most important in the college selection process.

## LEARN THE SMART WAY!

*Smart Learning makes a successful foundation for your students' success from K to College! Let us make a difference.*

## ABOUT US

Smart Learning Solutions Inc, is devoted to working with students of all ages to ensure that they possess the qualities needed to succeed in the 21st Century Global Marketplace. We believe that with good, solid instruction from qualified instructors, all students can achieve through research-based pedagogical methods that cater to the individual needs of each student. Additionally, we provide organizations with Science, Technology, Engineering, and Mathematics (STEM) Education Programs that engages students (Pre K - 12) as they explore technology and engineering solutions that appropriately apply the concepts of mathematics in order to understand and address real life issues and solve problems and/or challenges that includes hand-on activities through Lego® and advanced engineering competitions in robotics, flight simulation, cyber security, video game design and more.

## PROGRAMS

### TUTORING

We provide individual/group tutoring in all subject areas and grade levels. Prior to the initiation of tutoring services, students complete a comprehensive diagnostic assessment.

### STEM EDUCATION

Our STEM program allows our students to engage in the rigor of science, technology, engineering, and mathematics (STEM) content while being engaged in learning activities that investigate the natural world. Students explore technology and engineering solutions that appropriately apply the concepts of mathematics in order to understand and address real life issues and solve problems and/or challenges. As our students progress, they will begin to independently integrate various STEM concepts. They will understand how to apply the roles and views of STEM career professionals and analyze real world STEM issues, problems, or challenges. Students will learn and apply rigorous content within science, technology, engineering, and mathematics disciplines to answer complex questions, to investigate global issues, and to develop solutions for challenges and real world problems.

### SAT PREP (8 week-Instructor Led)

The SAT Prep Course consists of ~18 classroom hours of instructions in Math, Critical Reading and Writing. Students will learn and master techniques for getting to the right answers and strategies for raising their score.

### High School Entrance Exams

Independent School Entrance Exam (ISEE) for grades 4-12, Secondary School Admission Test (SSAT) for grades 5-11 and High School Placement Test (HSPT) for eighth graders for placement in 9<sup>th</sup> grade

### MENTORING

Our mentoring program is designed to create sustained and supportive mentor relationships for youth in need. The program matches youth with inspirational adult mentors who can guide them in developing better self-esteem, creating healthy relationships, and making positive life choices.

**MR. JAMIL  
SMART**

**PRESIDENT  
AND CEO**

Mr. Jamil Smart is a native Washingtonian and a graduate of Tuskegee University where he received his Bachelor of Science degree in Electrical Engineering. Mr. Smart later earned his Master of Engineering degree in Electrical and Computer Engineering from the University of Maryland College Park. Mr. Smart is an energetic, logical thinker with over 15 years of technical and leadership experience in electrical engineering, systems engineering, safety engineering, and project management. Through his career, Mr. Smart has developed a passion for education and working with students to maximize their success. This passion has led him to create Smart Learning Solutions, Inc. in 2006.

### Smart programs for every need!

- College and Financial Workshop
- College & University Tours
- LEGO® Engineering
- LEGO® Robotics
- Sea Perch Robotics
- GED Preparation
- High School Prep Entrance Exams
- Mentoring Programs
- STEM Education (Pre K – 12)
- SAT Prep Course
- Forensic Science
- Tutoring (All Subjects)
- Professional Development
